

*East meets West*  
*at the Crossroads of Early Modern Europe:*  
*Artistic Inspirations & Innovations*

University of Sussex, 6th & 7th September 2007

Bernard Wapowski (1508) Poland and neighbouring countries.

This conference brings together eminent researchers in the field and provides a unique opportunity to explore Central/Eastern European art and culture of the Early Modern period. The aim of the conference is a re-assessment of this artistic heritage, which will allow us to re-integrate the art of Central/Eastern Europe into the pan-European context. The conference will inform a new interpretation, not only of Central/Eastern Europe art, but also of Western art of the period.
